GELATI&CO

La nuova linea
di stampi in silicone
per realizzare i tuoi gelati

BRIVIDODIPIACERE

Pavoni
Italia presenta la nuova
linea di stampi **Gelati&Co.**

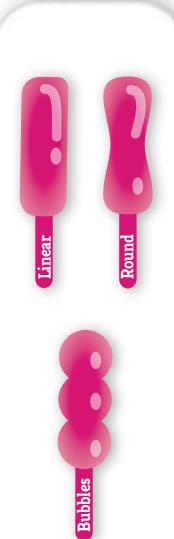

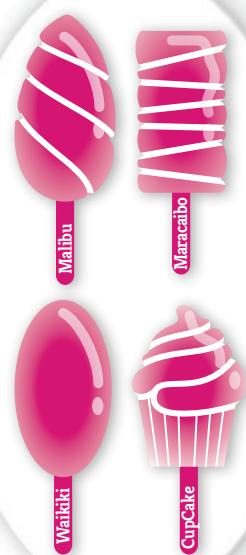

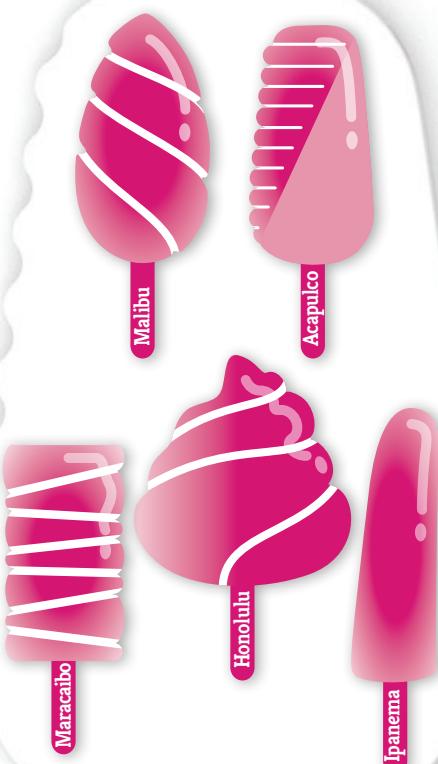

Una gamma completa di stampi in silicone per realizzare gelati su stecco e gelati biscotto. **Pavogel** è una linea di stampi aventi una speciale chiusura a cerniera che agevola l'inserimento dello stecco e permette l'estrazione del prodotto finito senza alcun tipo di manipolazione diretta dello stesso. Tale sistema, brevettato da Pavoni Italia, renderà la produzione dei vostri gelati veloce, igienica e di grande effetto! **Pavocookie** è una linea che include 8 tipologie di stampi raffiguranti simpatici animaletti, con i quali si possono realizzare semifreddi, gelati e gelati biscotto per la gioia di grandi e piccini! Le forme Pavogel e Pavocookie ideate dal team di creativi Pavoni, sono caratterizzate da un design unico e raffinato che renderà la vostra vetrina davvero "da brivido"!

*Pavoni Italia presents the new professional silicone moulds **Gelati&Co.** A complete range of moulds to create stick ice creams and biscuit ice creams. **Pavogel** includes silicone moulds with a special hinge system opening which enables the stick insert and lets the product extraction easier without any direct touch of it. Such system, patented by Pavoni Italia, will allow the production of your ice creams quick, hygienic with great effect! **Pavocookie** is a line which includes 8 kinds of moulds, showing nice animals. With Pavocookie you can create parfait, ice cream and biscuit ice creams to make everybody happy, younger and older! Pavogel and Pavocookie (all registered design), create by Creative Pavoni Team, are featured by a unique and fine design which will make your shop windows a "goosebumps" one!*

UTILIZZO

HOW TO USE

UTILIZZO HOW TO USE

pavoGEL®

Con l'aiuto di un sac a poche o direttamente con la spatola,
riempire lo stampo.

With the help of a sac a poche or with a spatula, fill Pavogel mould.

Posizionare nel centro del composto
un inserto, se previsto dalla ricetta.

Put an insert in the middle of the compound, if requested.

Inserire, fino a fine corsa, l'apposito stecco nella
feritoia dello stampo | *Insert the stick into the hole placed
onto the closing side of the mould.*

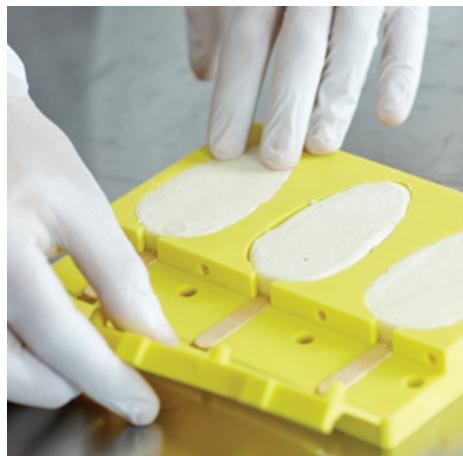

Livellare la superficie del composto con una spatola.
Mettere in abbattitore per ca. 90 minuti | *Level the
surface of the mould with a spatula. Put in blast chiller for about
90 minutes.*

Aprire la chiusura a cerniera ed
estrarre lo stecco | *Open the hinge
closing system and extract the ice cream.*

Con Pavogel l'estrazione è semplice, precisa, senza manipolazione
del prodotto finito!
With Pavogel the extraction is easy, precise, without handling of the finished product!

UTILIZZO HOW TO USE

pavoCOOKE®

Inserire delicatamente il biscotto nello stampo.
Insert softly the biscuit into the mould.

Riempire un primo strato di gelato.
Fill a first layer with ice cream.

Creare un secondo strato di gelato.
Create a further ice cream layer.

Livellare la superficie del composto con una spatola. Mettere in abbattitore per ca. 90 minuti.

Level the surface of the mould with a spatula. Put in blast chiller for about 90 minutes.

Posizionare delicatamente il secondo biscotto.
Place softly the second cookie.

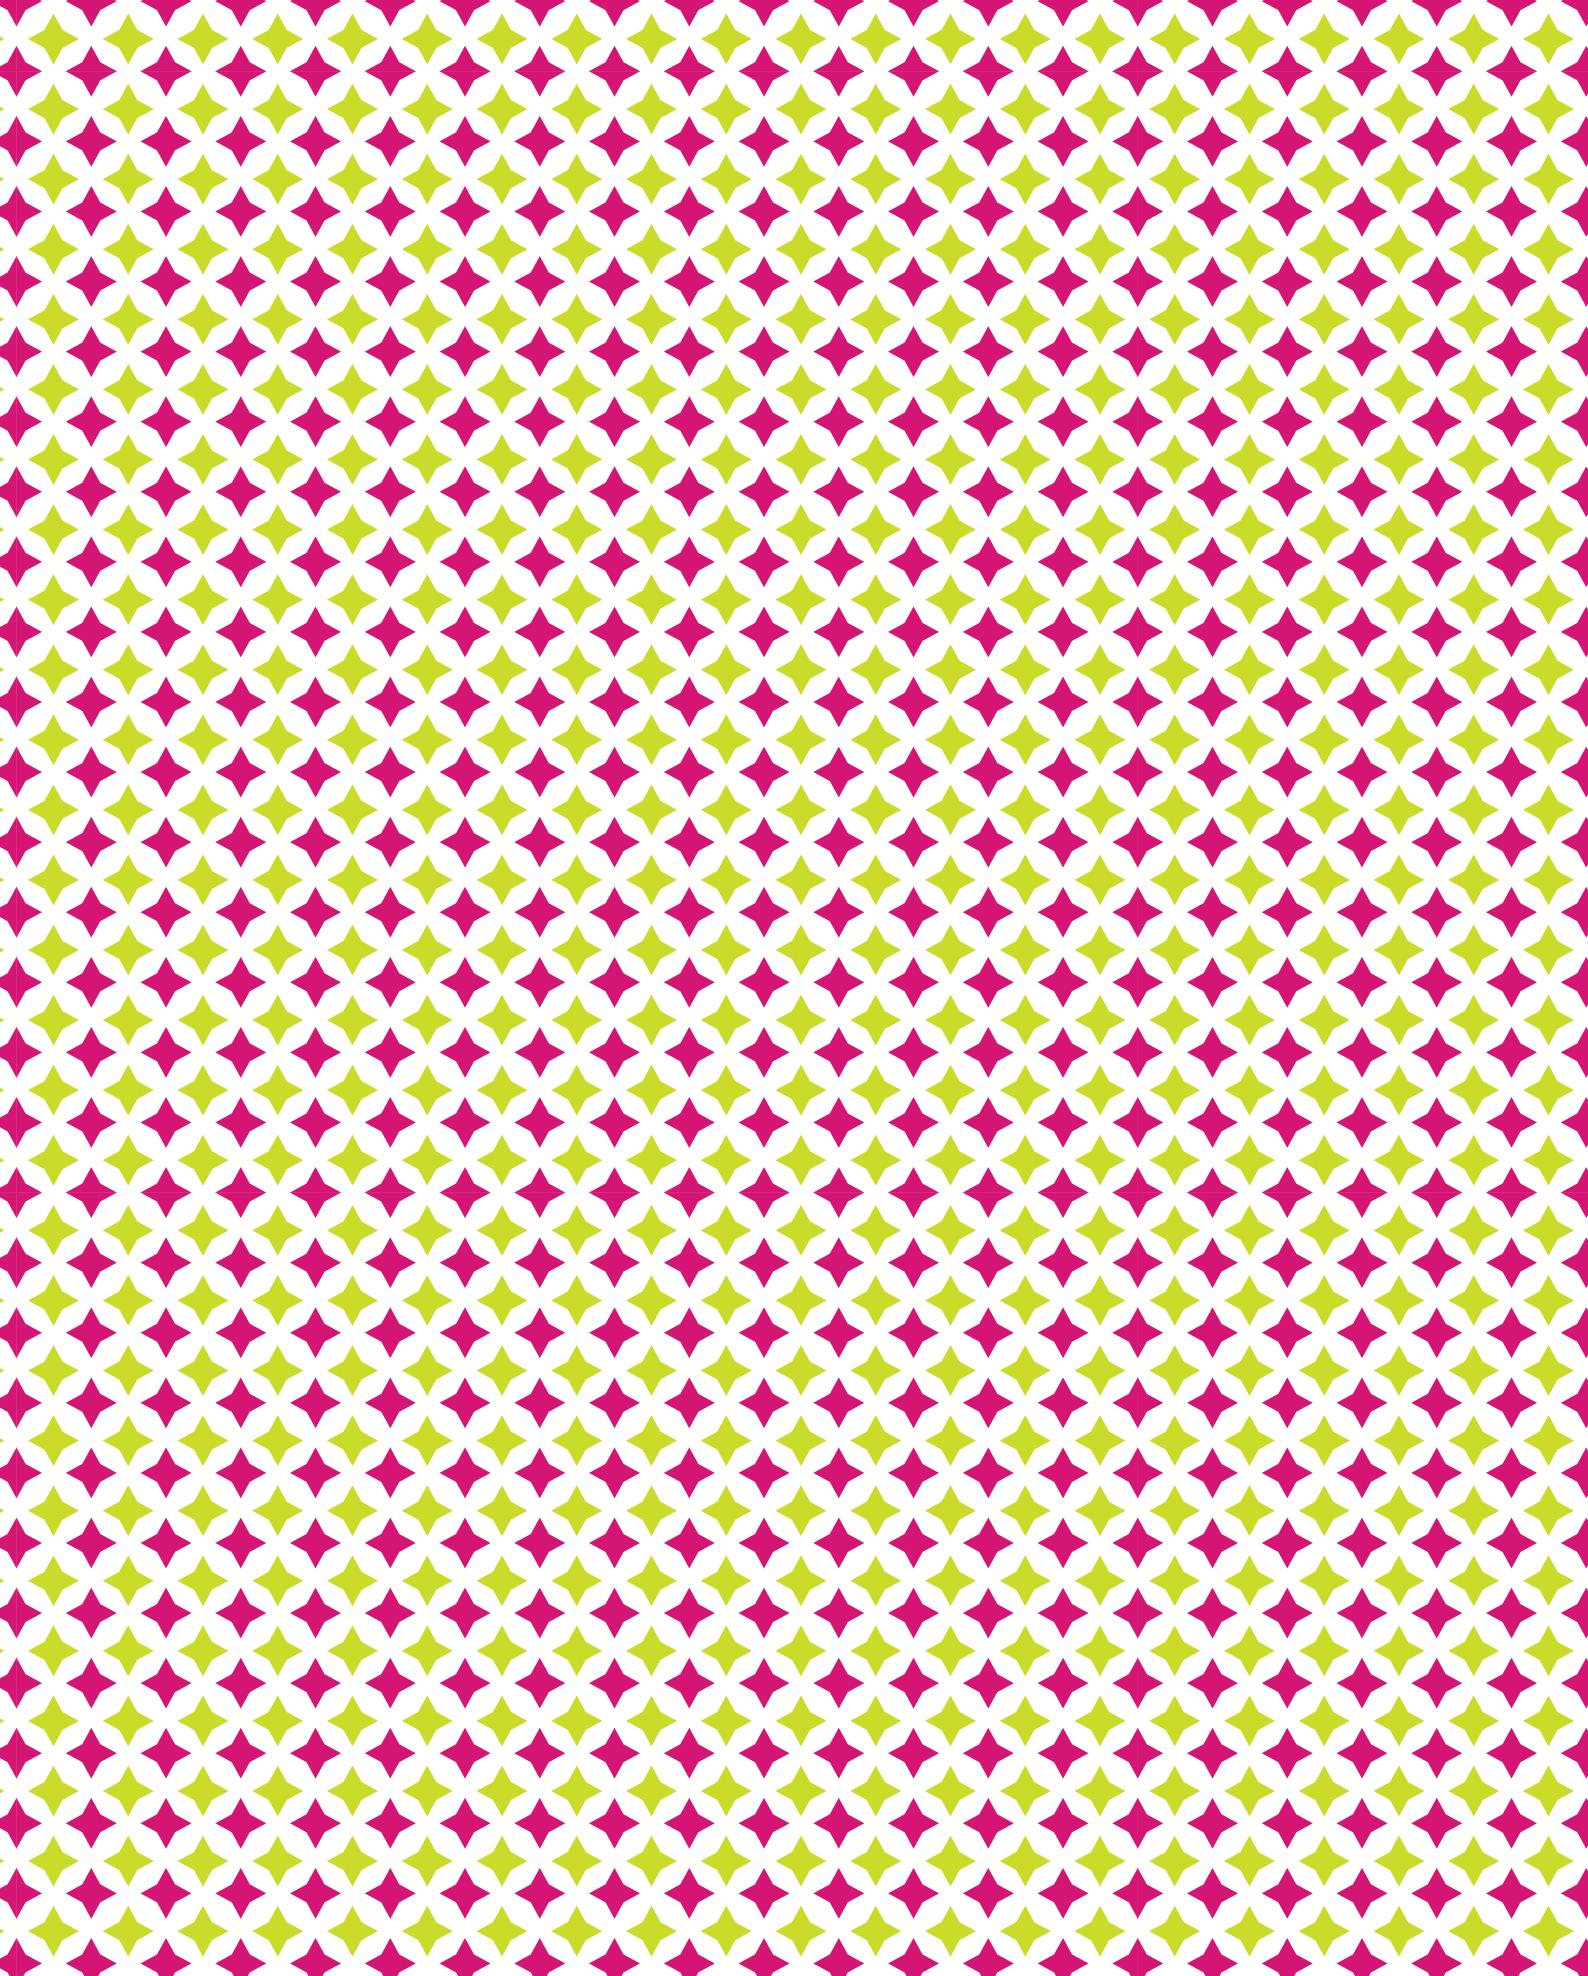

Smodellare il biscotto gelato estraendolo dallo stampo. *Demould the ice cream biscuit through its extraction from the mould.*
